Work Experience

Full-Stack Developer

Israel Defense Forces | Feb 2024 - Present

- Replaced Excel workflows with an optimized data management system, significantly improving productivity for accountants.
- Enhanced data security through structured data models and scalable application architecture.
- Improved frontend maintainability by developing modular components and screen-based layouts.
- Contributed to intuitive UI/UX design decisions, resulting in better user satisfaction.

Full-Stack Developer

FeelThere | Oct 2022 - Feb 2024

- Refactored server-side code and designed scalable architecture, improving system maintainability.
- Implemented Facebook and Google authentication with JWT, streamlining user onboarding.
- Actively participated in Agile sprints, collaborating with cross-functional teams to drive architectural decisions and feature delivery.
- Developed integrations with Facebook and YouTube APIs, enabling multi-platform streaming.
- Played a key role in designing database schemas and migrating the project to TypeScript to improve scalability.
